

Peterbilt

MODEL

389

The icon
of the
industry.

MODEL 389

The Model 389 is the embodiment of Peterbilt's heritage and the one true icon of the road. It remains the ultimate aspirational truck and the preferred reward truck for drivers in fleets large and small. Built for maximum appeal and enduring performance, the 389 delivers both in style.

The 389's timeless design belies a host of advanced technologies, including the powerful PACCAR MX-13 engine. Its proven all-aluminum cab and industry-exclusive aluminum hood provide a durable and lightweight platform optimized for maximum load capacity. The 389's interior features the highest quality materials in an ergonomic, driver-centric environment. The interior also features Peterbilt's SmartNav display, which provides access to virtual gages, navigation, satellite radio and Bluetooth connectivity. The 389 is available as a day cab or sleeper for maximum versatility.

MODEL 389 SPECS

POWERFUL PERFORMANCE

The Model 389 is available with the powerful, yet fuel-efficient PACCAR MX-13 engine with power ratings up to 510 hp and 1,850 lb.-ft. torque for maximum performance.

PACCAR MX-13

CAB INTERIOR

The Model 389 features an ergonomic dash that puts everything within reach of the driver and improves visibility. The charcoal finish reduces glare and resists scratches and fading.

SLEEPER INTERIOR

Peterbilt's unique sleepers are built to deliver unparalleled fit and finish, quality and comfort. They feature plenty of storage, shelving, ample overhead lighting and a powerful HVAC. Available in 44", 58", 72" & 78" configurations.
